Welcome to the American River

The Auburn State Recreation Area, an exquisite recreation, historical and scenic gem, is located just 30 minutes from the northern boundary of the American River and a short drive from Auburn to Coloma. The Auburn IRA provides high quality open space, and the Auburn and California’s legendary Gold Country. The American River also offers recreational fun for those interested in the outdoor adventure, history and culture.

ELDORADO COUNTY

The Auburn State Recreation Area, an exquisite recreation, historical and scenic gem, is located just 30 minutes from the northern boundary of the American River and a short drive from Auburn to Coloma. The Auburn IRA provides high quality open space, and the Auburn and California’s legendary Gold Country. The American River also offers recreational fun for those interested in the outdoor adventure, history and culture.

Marshall at Sutter’s Mill on the South Fork in 1848, the discovery of gold by James Marshall set in motion a series of events that would forever change the landscape of California. At that time it was the longest concrete arch railroad bridge in the world. The bridge and connecting rail line was a major engineering achievement of its time. It was also the starting point of the California Gold Rush, which brought thousands of people to the area in search of fortune.
