North Fork Gorge below Mineral Bar.

Wild & Scenic Forever

California Wild & Scenic designation will forever protect 16 miles of the North Fork American River from the Colfax-Iowa Hill Bridge to Upper Lake Clementine from being lost under a dam's reservoir.

The undammed free-flowing North Fork American River from its headwaters in the Sierra Nevada Mountains to Upper Lake Clementine includes accessible deep scenic canyons with a mosaic of diverse, unique foothill plant and wildlife communities. Visitors enjoy fishing, hiking, swimming, whitewater boating, nature study, recreational gold panning and much more.

Windy Point Trail Meadow.

Some places are unique and irreplaceable – worthy of protection. California Wild & Scenic designation would help ensure continued funding for the Auburn State Recreation Area while protecting its unique and irreplaceable natural resources.

Junior Ranger American River Ecology exploration at Upper Clementine.

Dreams can come true. Help Protect American River Canyons make this a reality by adding your name and email address to the growing list of Wild & Scenic supporters.
